### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The closest prior art teaches compositions of fluoropolymers with functional groups with crosslinking agents, and there is also a teaching of combining different combinations of functional polymers with different crosslinking agents. The second teaching is found in reference to Aoki et al, U. S. Patent 6,121,408. The reference, however, teaches many polymers, but never suggests that fluoropolymers can benefit or even function with combinations of curing mechanisms. There is, therefore, no motivation or reasonable suggestion in the prior art to combine different curing systems in a single composition as required by applicants' claims. The claimed invention is, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
